### STAFF IN-SERVICE

School in-services that are FUN and INTERACTIVE while teaching student self-management tools are provided by Walkin' the Talk's facilitator, Sue Wade. The feedback from a November middle school:

*The teachers loved the positive tone, the movement, interaction and practical application of the skills taught. I think the only negative is that we could have used more time and that was unavoidable. I wish that we could do a whole day!*

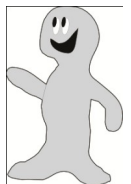

*Thanks again for everything. You are appreciated!*  
Administrators can check out the website for specifics: [www.walkinthetalk.org](http://www.walkinthetalk.org)

I Am Peace.org has selected Walkin' the Talk's to be their academic curriculum for mentoring students and adults. Wayne Hironaka at Grant High in Sacramento, CA has been the voice and fuel behind iampeace.org— an in-school mentoring and character building organization.
